PROFESSIONAL SUMMARY

Senior Software Engineer with 5+ years of experience architecting scalable distributed systems and cloud-native applications. Expert in building high-performance platforms and apps using Node.js, NestJS, and Kubernetes. An AI-native developer proficient in leveraging Cursor and Claude to accelerate delivery cycles and optimize engineering workflows.

EXPERIENCE

Senior Software Engineer

Feb 2023 – May 2025

GeekyAnts India Pvt. Ltd.

- Architected and built custom Order Management System with checkout and payment integration using **Nest.js, AWS, Kafka, and Kubernetes and Microservices** processing **\$4M+** in annual revenue.
- Led critical **database migration** from **Firebase to MongoDB**, boosting data management and **API performance by 50%**.
- Collaborated with cross-functional teams to deliver end-to-end features, taking ownership from architecture to release.
- Contributed to technical decisions and mentored junior engineers.

Software Engineer III

Feb 2022 – Feb 2023

GeekyAnts India Pvt. Ltd.

- Built enterprise **workspace booking** system handling **5000+ daily reservations** across 100+ locations with **95% reduction in booking conflicts**.
- Architected and implemented membership **agreement e-signing and e-stamping** workflow using **Leegality, Express.js, Cloud Pub/Sub and webhooks** streamlining membership agreements.
- Built and maintained mission-critical web apps using **Google Cloud Platform** (Functions, App Engine, Pub/Sub, etc.).

Assistant System Engineer

Aug 2020 – Feb 2022

TATA Consultancy Services Ltd.

- Modernized banking website** by **migrating to React and Node.js** in a 6-developer team.
- Improved team productivity by creating **analytics tool** for data filtering, chart generation, and **dynamic dashboard** creation using **QueryBuilder.js, D3.js, React, and Java Hibernate**.

TECHNICAL SKILLS

Languages & Frameworks: TypeScript, JavaScript, Node.js (Nest.js, Express), React, Next.js, React Native, Java.
Backend & Architecture: Microservices, Event-driven Systems, REST, GraphQL, Kafka, Redis, RBAC, OAuth 2.0, JWT.
Cloud & Infrastructure: Kubernetes, AWS (SQS, S3, API Gateway), GCP (Functions, Pub/Sub, App Engine, Tasks, KMS).
Databases & Search: PostgreSQL, MySQL, MongoDB, Firebase Firestore, Elastic, Algolia.
AI & Development Tools: Cursor, Claude, OpenAI API, GitHub Actions (CI/CD), Git, NewRelic, Sentry.

PROJECTS

Time Slot Booking App | *React Native, Tailwind, Node.js, Express.js, MySQL, Azure*

[Link to Repo](#) 📄

- Developed a **cross-platform mobile app** to manage and **book time slots in real time**.
- Engineered dynamic slot generation, secure locking, and comprehensive reservation management features via REST APIs.

PAN Card Data Extraction using OCR | *JavaScript, Next.js, GitHub Actions, GCP App Engine, Pub/Sub*

[Link to Repo](#) 📄

- A **Javascript OCR** to scan and extract key information from PAN cards, like PAN, name, father's name, date of birth, etc.
- Implemented a scalable micro-services architecture with an event-driven design for efficient processing.
- Utilized Node.js, Express.js, Next.js, Google Cloud App Engine, Pub/Sub, Firebase Firestore and GitHub Action.

EDUCATION

MSc. Computational Science

Laurentian University, Sudbury, Ontario (part-time)

2025 – present

Master of Computer Application

Sardar Patel University, Vallabh Vidyanagar, India

85%

2017 – 2020

Bachelor of Computer Application

Veer Narmad South Gujarat University, Surat, India

80%

2014 – 2017
