

ARBAZ DIWAN

Full Stack Developer | Node.js | Express.js | MySQL | AWS, GCP | Process Automations

📞 +1 (249)-878-6612 ✉️ arbazdiwan2601@gmail.com 🔗 [linkedin.com/in/arbaz-diwan](https://www.linkedin.com/in/arbaz-diwan) 📍 Sudbury, ON

SUMMARY

Software Developer with 5+ years of experience building and supporting web applications using Node.js, Express.js, JavaScript, MySQL, MongoDB, and cloud platforms including AWS and GCP. Worked across the full software lifecycle, collaborating with product, operations, and non-technical stakeholders to gather requirements, design solutions, deliver features, and support production systems. Experience includes payment systems, process automation, third-party integrations, reporting tools, and applications used daily by business, operations, and back-office teams.

EXPERIENCE

Senior Software Engineer

Feb 2023 – May 2025

GeekyAnts

- Owned backend for **PayPenny**, a remittance app processing **\$1M+/month** across Canada, UK, Australia, and EU.
- Architected and scaled **WeWork India**'s backend systems handling **\$4M+** monthly transactions, replacing Shopify with a distributed Order Management System (OMS).
- Designed **checkout** microservice with JusPay **payment gateway** integration, handling complex payment flows such as retries, cancellations, partial payments, invoicing, refunds, and payment reconciliation.
- Migrated Firebase database to MongoDB & PostgreSQL, improving data integrity, scalability, and API performance by **50%**.
- Improved application security by identifying and mitigating **OWASP Top 10** vulnerabilities; and mentored engineers.

Software Engineer III

Feb 2022 – Feb 2023

GeekyAnts

- Built enterprise workspace booking platform supporting 5,000+ daily reservations across 100+ locations, reducing booking conflicts by **95%**.
- Automated client onboarding using **DocuSign** and Leegality integrations, reducing processing time from days to minutes.
- Worked with operations & finance teams to deliver invoicing, reporting, transaction management, process improvements.
- Built and maintained backend services & third-party integrations using Node.js, Express.js, PostgreSQL, MongoDB, GCP.

Assistant System Engineer

Aug 2020 – Feb 2022

TATA Consultancy Service (TCS)

- Built internal analytics tool with dynamic dashboards using **D3.js**, improving data analysis workflows for finance team.
- Managed user provisioning, role assignments, and authorization controls within **SAP S/4HANA** enterprise systems.

SKILLS

Backend: Node.js, Express.js, NestJS, Event-driven Microservices, Kafka, REST APIs, OAuth2, OpenAPI.

Frontend: HTML, CSS, JavaScript, TypeScript, React, Next.js, React Native.

Cloud & Infra: AWS (S3, SQS, Lambda, RDS, API Gateway), Google Cloud (Pub/Sub, Functions, App Engine, KMS), Docker, CI/CD.

Observability & Tools: AWS Cloud Watch, Sentry, NewRelic, Git, Jira, Metabase, SendGrid, Swagger.

Databases & Search: MySQL, PostgreSQL, MongoDB, Firebase, Supabase, Elastic, Algolia, Redis.

PROJECTS

Time Slot Booking App | *React Native, Node.js, Express.js, MySQL*

Link to GitHub 🔗

- A scheduling platform with dynamic slot generation, availability & booking management, and concurrency controls.

Inner Voice | *consumer focussed employee feedback platform*

innervoicehq.com 🔗

- Anonymous employee feedback platform to collect, analyze, and respond to workplace feedback with a public wall.

EDUCATION

MSc. Computational Science

9.0

Laurentian University, Sudbury, Ontario. (Available full-time from August 1, 2026)

2025 – Jul, 2026

Master of Computer Application

85%

Sardar Patel University, Vallabh Vidyanagar, India

2017 – 2020

Bachelor of Computer Application

80%

Veer Narmad South Gujarat University, Surat, India

2014 – 2017
